WE OFFER

WORLD CLASS QUALITY MANAGEMENT

TPI is a medical contract manufacturer that is ISO 13485:2016 certified, specializing in prototyping, engineering, manufacturing, and branding of custom sewn and sealed solutions

In continuation of our promise for premium results, TPI is also an FDA Registered medical contract manufacturer in assisting your project with a variety of expertise.

WHAT WE DO

TPI CUSTOM SOLUTIONS

CUSTOM SEWING

TPI's design engineers collectively hold over 60 years of experience in delivering industry-leading custom sewing services for the unique needs of our clients.

FABRIC WELDING

Fabric welding is the special bonding of industrial fabrics to create a secure, impenetrable seam to contain or repel air or liquids and ensure that delicate, perishable items remain safe.

ULTRASONIC WELDING

This welding involves bonding two dissimilar materials through ultrasonic acoustic vibrations and pressure.

RADIO FREQUENCY WELDING

The RF welding process includes taking two materials and bonding them together through radio frequency (RF) energy to create strong, impassable, and high tensile strength welds.

CLASS 8 CLEANROOMS

Class 8 Cleanroom manufacturers specialize in making custom medical supplies. TPI offers a diversity of capabilities and contains a maximum particle count of 100,000

CONCEPT DESIGN AND DEVELOPMENT

Our extensive experience and profound knowledge of development, materials, and construction enable us to transform the most challenging ideas into a custom-sewn and sealed product that meets your application's specifications' fit, form, and function.

INVENTORY STOCKING PROGRAM

Are you expecting a significant manufacturing volume? Don't worry! TPI offers competitive pricing by completing production in large volumes and providing specialized inventory stocking programs.

Custom 3-D Printing

Enhance your development project with TPI's custom 3D printing services to improve the manufacturing process. Our dual extruder 3D printer with easy-to-use features gives users a better printing experience and a high-quality result.
